Salisbury Laboratory Remodeled as Part of \$1,000,000 Expansion Program

Remodeling of the Salisbury Laboratories has not, by any means, been confined to the construction of the new addition. The original floor plan has changed so much that students and professors alike find it only too easy to slip into the wrong room, especially if they are cutting an eight o'clock a little close. An excellent idea of the changes made can best be obtained from an imaginary trip from floor to floor.

On the first floor, the former Physics Electricity Lab has been converted into a fine Chemical Engineering Lab complete with offices for the department staff. On the opposite side of the hall, the former Industrial Chem room has had most of its floor removed, turning the floor that was left into a gallery for the basement room, whose roof is now the first floor ceiling. In other words, this new Chemical Engineering lab is a two story room, with a large gallery.

The most extensive changes have been in the former Physics Lecture

hall, on the second floor. In its place is a combined Physics and Chemistry Library and reading room, with offices. The reading room is pleasingly decorated and has a unique glass enclosed information desk. Behind this desk several offices are located. The old chemistry lecture room on the third floor was converted into two large well-lighted, airy recitation rooms. Each of these rooms will hold fifty to sixty students with ease. Two washrooms occupy spaces near these new rooms on both second and third floors.

Returning to the first floor, we cross along the corridor made for this purpose, to the new addition. From a building where the smallest sound is audible, we have passed into a veritable sanctuary of quietness. Here the sound-proofing material which covers the walls deadens unpleasant noise. Gone also are the "pleasant" odors of the old building. If any disagreeable smells are created, automatic air circulators go into action and in short order the air is fresh again.

On the floor which is level with the street we find, on either side of Kinnicutt Hall, a physics lecture preparation and supply room and a similar Chemistry room.

Kinnicutt Hall itself is built to accommodate 237 students and is therefore the largest hall at the Institute. The facilities at hand for the rapid change of lecture apparatus are a boon to both departments making use of the hall.

On the floor below this are the electricity and magnetism labs and a shop for chemical engineers.

A treat is in store for those who have not yet visited these buildings.

Wm. S. Allan Elected Chairman of Dorm Committee Friday

At a meeting of the Dormitory Committee held Friday noon, October 13, in the faculty dining room, William S. Allan, first floor representative, was elected chairman of the committee and Robert P. Seaton, third floor representative, was elected secretary. Four of the men present had been elected by the dormitory residents at previous meetings held on each floor. The remaining four men were appointed by the dormitory board. These meetings were conducted by Carl Keyser, dormitory counselor. The members who had been elected by the dormitory residents to represent them were: William S. Allan, first floor; Robert Montgomery, second floor; Robert P. Seaton, third floor; and Pierre Volkmar, fourth floor. The members appointed by the dormitory board were in order of floors: Robert P. Maxon, Robert A. Bierweiler, Paul G. Atkinson, and Edward H. Peterson. This meeting was in the form of an informal luncheon at which President Wat Tyler Cluverius was guest. The following members of the administration and faculty were present: Dean Jerome W. Howe, Chairman of the Dormitory Board; Prof. Paul R. Swan; Prof. William W. Locke, Superintendent of the Dormitory; and Carl Keyser, Dormitory Counselor.

Hon. Membership in A.S.T.M. Given To Five Seniors

Five student memberships in the American Society for Testing Materials have been provided by Mr. S. Collier, W.P.I., '16, Manager, Inspection and Control Department of Johns-Mansville. These prize awards have been given to the following five men on the basis of excellence in Mechanical Engineering Laboratory and the courses in Materials of Construction and Strength of Ma-

C.A.A. Group To Be Cut to 20

Physical Exam May Force Change in Original List

By means of the Civil Aeronautics Authority bulletin board in Boynton Hall, Prof. Merriam made it known last week that a final contract for but twenty student flyers had been signed.

This means that from the thirty-four signed up, a selection would have to be made. By means of a grading system which was high for the Sophomores and progressively lower for the Juniors, Seniors and Graduate students twenty men have been selected.

So far none of these men have had their physical examination although appointments have been made for them during this next week. If any man is disqualified on the physical fitness qualification, he will be replaced from the second group with slightly lower scholarship standards.

The ground school work which started last week will continue for all men until the quota has been filled. However, eventually only one ground school group will be given instruction.

Subject to alteration by physical disqualifications the following group will be the flyers of Worcester Tech: Mager, Bentley, Brooks, Chatfield, Dower, Gove, Howard, LaFrance, Lowd, Miller, Morrison, Peters, Ramaker, Ross, Roulston, Shaw, Wadsworth, Zipser, Holby and Crane.

The substitute list includes: White, Monchamp, Cooley, Von Bremen, Jacobs, MacMurray, Hubley, Mayer, Libby, Saunders, Chaffee, Borup, Crowell, Osipowich, Bettcher, and McGinnis.

Fighting Frosh Dunked in Murky Waters Of Institute Pond by Tactical Sophs

The Sophomore class won the annual rope pull against the Freshmen last Thursday, October 12. Underdogs as freshmen, the class of 1942 started out in a big way to subjugate this year's freshmen. However, the freshmen were not defeated until after they had put up probably the gamest fight ever seen in a Tech rope-pull. Even after the whole team was standing waist-deep out in the middle of Institute Pond it looked like they might still rally to win, and although it took the Sophs

but ten minutes to pull the first Freshman to the edge of the water, it was not until after another ten minutes of hard pulling that they landed the Freshmen on the opposite shore.

By winning this event, the most important one in the Goat's Head series, the class of '42 garnered themselves three points toward winning the Freshman-Sophomore rivalry. The next event will be the Paddle Rush which

Harrison Forman, Modern Day Explorer To Speak at First Fuller Lecture

R. J. Forkey President of Senior Class

Johanson, Fraser Tied For Office Of Treasurer

In a rather close election held by the Senior class last week, Raymond J. Forkey, star athlete and former class president, was elected president. Also candidates for the presidency were: Robert E. Dunklee, retiring president; Frank Crosby, former president; and Raymond Shlora.

Under the Senior class constitution, it was necessary for Forkey to receive a plurality of twenty votes. He had just exactly that number.

Both Fritz Johanson and Kenneth Fraser lacked a plurality for the position of treasurer. This will necessitate another vote this week. Also to be elected this week are the offices of vice-president, secretary and historian.

Russ Lovell is chairman of the nominating committee.

(Continued on Page 4, Col. 2)

Sophs Hold Victory Smoker at S.A.E.

The most important men on the campus (so they say), the Sophs, made plans late last week for an exclusive victory party to be held in the S.A.E. house last night. Overcome by their surprise victory over the Frosh, they couldn't help celebrating.

Plans included pep talks and cider. Norm Kerr, President of the Sophomore class, was recalcitrant about saying anything of the plans. Unwelcome guests, huh? More power to you 1942 and congratulations on the rope pull.

"Through Forbidden Tibet" Chosen as Subject; Assembly Day Schedule

On Wednesday morning, October 18, at 11:25, the first Fuller Lecture is to be held in Alumni Gymnasium.

The speaker, Harrison Forman, is a widely known explorer, adventurer, newspaperman, and author. Having spent nine years in Asia including some time spent on the Chinese war front as newspaper photographer, he is well qualified to speak on his chosen topic, "Through Forbidden Tibet." Mr. Forman was technical director of the motion picture "Lost Horizon" through which his knowledge of Tibetan customs and background was brought to the attention of the American public. "Through Forbidden Tibet" is the title of a book which he has recently published in this country.

Mr. Forman has just returned to this country about a month and a half ago, having traveled through Europe and especially Czechoslovakia.

These monthly lectures are sponsored by Henry J. Fuller, noted New York alumnus, who also presented Tech with its swimming pool, now known as Fuller Pool.

It is brought to the attention of the student body that no classes will be eliminated on Wednesday morning but all classes will be shortened. This present system of a full schedule on Assembly days has been inaugurated by Admiral Cluverius and it is certain to meet approval by the whole college.

The Tech band, directed by William Lynch, will play.

Tau Beta Pi, scholastic honorary society, will not pledge at this assembly but will pledge during the November assembly. Seniors in the upper quarter of their class are eligible.

Four Wasted Years

Four wasted years! a fifth of our life, and the best fifth, too, given over to that exacting taskmaster, the will to gain an engineering education; four years of concentrated effort, of hard work, long hours and little chance to play; four thousand useful dollars squandered on following a will-o'-the-wisp, the hope of being able to lead a more useful life and, of finding happiness and success more easily and fully. Is this how we will view these eight short semesters at Tech? Is this how we will feel one, two, three, or even four years from now? It is quite possible we will, and if we do, it is also very possible we will have ample justification for thinking those very thoughts!

We certainly do not think of our opportunities here at Tech in anything but just the opposite frame of mind, at the present stage of our careers. To us, now, Tech is the gateway to a more successful life, to greater happiness and security. All the money, time and effort being spent on our acquiring this excellent engineering education we feel will prove well worth while. Why, then, do we suggest that there will be a change of view point?

The present situation in Europe suggests only too sharply the possibility of a declaration of war by the United States; a call for volunteers, then a draft of the best manhood of the country, the ages from twenty-one to thirty. A golden opportunity for all of us to show how much better cannon fodder is a man with an engineer's degree; how much more efficient he is—at stopping bullets. We rather think that a dead man with a Bachelor of Science degree is no more useful in this world than a dead grammar school graduate. Moreover, if that college man has only been graduated a few years, he's dead without even the satisfaction of knowing he has added his little bit to the wealth of this world and for four of the most useful years of his life, he has been receiving from the world, not giving; he has been a parasite, eating of the knowledge produced by other men but not adding to the world's knowledge itself. While other men were out working for their place in the world, yes, and having their share of fun, he was "squandering money, time and effort following a will-o'-the-wisp." How much better to have skipped college altogether, to have gone straight to work, to have earned his own money and spent his own way, to have had his fun and tasted a bit of life before departing for an unknown grave in Europe.

But, getting back to the present, how infinitely better to graduate with an engineering degree, to have many free years in which to capitalize on the opportunities given him by the courses here at Tech; the opportunities to be successful and find happiness and security. The only way this can happen is for the United States to stay out of the war. To that end let us bend our efforts. And more and more to the feeling against war. We need all the anti-war sentiment the country can muster and our voice against all war is a deciding factor.

Club News

W. P. I. BAND

The W. P. I. Band held its first meeting Wednesday, October 4, in the gymnasium with all of last year's members present and a large showing from the class of 1943. There were four new trumpeters, five new clarinetists, one trombonist, and one new drummer. Another big addition to the band in more ways than one is Ed Rich of West Springfield, who plays the tuba and has had considerable experience with band work at Springfield Technical High School.

With the assistance of these new men the band will find itself very well balanced and of high quality. Director Bill Lynch is looking forward to another interesting and busy year with his charges who are already busy preparing for the three home football games to come and for the inaugural ceremonies to take place on October in the gymnasium.

The following membership list is announced by Clyde Gerald, manager of the band, for the coming year:

Trumpet: Crosier, H. E., Day, W. H., Gove, W. T., Gurney, G. T., Jackson, W. S., McLay, J., McKerrow, H. A., Nystrom, C. E., Page, E. G., Jr., Proctor, J. S., and Shailer, H. R.
Clarinet: Barnes, M. P., Benson, K. B., Corey, R. E., Higgs, R. E., Hixon, B. A., Meiselman, S., Merrell, R. K., Nutting, L. P., Sherwin, F. S., and Wright, J. B.
Drum: Benedict, J. W., Benn, F. J., Bley, R. E., Parlman, J. H.
Trombone: Crosby, F. B., Farnsworth, L. P., Parsons, K. W., and Stinson, R. W.
Bass Horn: George, G. F., Rich, E. A., and Simmons, W. P.
French Horn: Bradford, C. E.
Alto Horn: Lindblad, E. W.
Baritone Horn: Ryan, E. M.
Piccolo: Goodchild, C.
Manager: Clyde L. Gerald.

GLEE CLUB

The activities of the W. P. I. Glee Club got under way to a good start last week with the addition of about twenty new voices from the freshman and upper classes as a result of tryouts held Tuesday in Boynton 19. If there are other men who, for any reason, did not appear at these early tryouts and would still like to join the club, they should contact the director, Mr. Green, before or just after any rehearsal during the rest of this month.

The list of members of the club is as follows:

First Tenor: Frank Morrison, John Morrison, Fred Shippee, and P. A. Carullo.
Second Tenor: D. C. Usanis, J. H. Hinman, C. F. Wheeler, A. Rainis, D. L. Hartwell, R. S. Fleming, R. G. Ramsdell, F. H. Holland, Jr., J. D. Carroll, A. S. Goodrich, Jr., L. Hershoff, and R. G. Fritch.
First Bass: S. M. Potter, S. E. Scott, G. H. Raymond, E. Hebditch, S. W. Clark, R. Bonnet, G. F. George, C. Bennet, C. E. Bradford, G. P. Lentros, R. L. Ifland, R. W. Searles, R. H. Guay, and P. W. Wood.
Second Bass: J. Alcock, T. Crossley, A. Keith, R. Goulding, M. Rhodes, H. Warren, M. Jacobson, J. B. Wright, H. Morse, W. Richardson, E. White, P. Yankauskas, and D. Nyquist.

RIFLE CLUB

Attended by a large number of freshmen, the Rifle Club held its first meeting of the year on Tuesday, October 10, at the rifle range.

Fred White, president of the club, gave an informal talk on the purpose, activity, and general administration of the organization.

The prospects for this year look good, for the team lost only Jack Boyd and Augie Herd by graduation. With sufficient practice and a large body of freshmen from which to draw candidates the sharpshooters should go to town.

A junior varsity and a pistol team are to be organized this year.

NEWMAN CLUB

The first meeting of the Newman Club will be held in Sanford Riley Hall on Tuesday, October 17, at 7:30 p.m. This group, organized for the benefit of all Catholic students at Tech, extends a cordial welcome to the Catholic members of the freshman class.

Rev Charles Malumphy, curate of the Immaculate Conception Church, and chaplain of the society will be the principal speaker of the evening. The subject is, unannounced, but from past experience it is certain that Father Malumphy will have something inspiring to offer.

Officers in charge of the meeting are Raymond Shlora, president; Frank Delaney, Eugene Gravlin, Ranger Curran, and Dr. Charles Burns, advisor.

CAMERA CLUB

The first meeting of the Worcester Tech Camera Club will be held in Room 19, Boynton Hall, at 7:30 P. M., on Tuesday, October 17. The speaker will be John R. Bushong, a commercial photographer in Worcester, who will speak on the interesting subject, "Color Photography." Two of Mr. Bushong's color photographs will be displayed this week on the Camera Club bulletin board in Boynton Hall, around the corner from the mail boxes. Several more prints will be on exhibition at the meeting. Freshmen interested in joining the Camera Club may do so at this meeting. Members of the club may use the darkroom facilities at any time during the year. Club membership is one dollar a year. Officers of the Camera Club are: President, Richard H. Kimball, Jr.; Secretary-Treasurer, Philip J. Walker.

DEBATING SOCIETY

Last night the Worcester Tech Debating Society held its first meeting in (Continued on Page 4, Col. 1)

Offer to Undergraduates

Many of the students of the Institute have expressed a desire to have weekly issues of the NEWS sent home to their parents. To fulfill this request, the TECH NEWS is making a special offer of one year's subscription mailed home for \$1.50.

All those wishing to capitalize on this offer should fill in the following blank and leave it in the TECH NEWS box in Boynton Hall. A representative of the business staff will collect from you.

**Pedro, the Voder, speaks
...and HOW!**

THE VODER, nicknamed Pedro, is an amazing electrical device which actually talks—the first machine in the world to do that!

By pressing keys, singly or in combination, a skilled operator can make Pedro talk in almost human fashion—with varying inflections and in either a man's or a woman's voice.

The Voder is an outgrowth of fundamental research in speech sounds, articulation and voice reproduction being carried on at Bell Telephone Laboratories. Such studies have led—and will lead—to constantly improving telephone service for you.

A telephone call home would be appreciated. Rates to most points are lowest any time after 7 P. M. and all day Sunday.

Typical Tech Teamwork Takes Trinity 5-2

Blaisdell and Wilson
Score Three and Two
For Tech Tallies

By Charles L. Hoebel

Tech's soccer eleven took over Trinity on Saturday to the tune of 5 to 2, to run its record of wins to eight straight games. Teamwork was the password all during the game. Trinity, a bit bewildered in their first game of the season, were pushed all the way except for part of the last quarter.

From the opening whistle, Tech took the play down into the Trinity area, to keep hammering at the goal. A corner kick in the first quarter by Kennedy, who dropped it in very nicely in the very center, was headed in by Blaisdell for the first score. The play continued to center around the Trinity goal, except for a few brief moments in the second quarter. These few moments, however, netted Trinity a score. A tough shot to stop, goalie Paige stopped it once, only to have it pushed back in, to set the score at 1 to 1. As Tech took the play back to the Trinity goal, in the same period, Paulsen set up a shot nicely for Blaisdell, who tapped it in, to once more give Tech the edge at 2 to 1. In the last few minutes of the second period, Wilson went in to relieve Paulsen, was in a very few minutes, and pushed one in to end the half with Tech on the good side of a 3 to 1 score.

In the third quarter Tech tallied once more with score being made by Wilson. Benn dropped a ball in from the left corner that grazed the goal posts and bounded nicely for Wilson to head in. About this time Trinity began to do a little pressing on her own part. However this did not become serious until the fourth quarter, when Burrage, Trinity center forward, scored his second goal of the game. The shot, a fast one, bounced from Paige's hands and was tapped in. Tech made a final drive in the fourth that netted them a final marker, by Blaisdell.

Outstanding on the Tech team was the teamwork, rather than any spectacular stalling. However, stellar back-field performance by Captain Fraser and Bosyk and by linemen Blaisdell, Wilson, and Kennedy added to the power Tech showed. Captain Ferguson shone at the center half position for the Trinity array. Burrage played good ball at center forward and sank both their goals.

Frosh Soph Track Meet October 24, 25

Second Year Men Favored
In Sprints and Jumps

The Freshman-Sophomore Track meet will be held Tuesday and Wednesday, October 24th and 25th at 4:30 in the afternoon. The main events will take place on Alumni Field, but the shot put and discus will be thrown on the space above the soccer field.

Both teams seem to be shaping up pretty well but each one has weak points, and both need more men.

The Freshmen, with such men as Burns, Drawbridge, Nye, and King, who are all on the varsity cross country squad, ought to cinch the two mile, the mile, and 880 yd. runs. In the opinion of track coach Johnston these men are among the best runners Tech has seen in a decade. The pole vault should also go to the Frosh squad, as they have Eric Linden, husky six-footer, who has been scaling 11 feet with ease and is still climbing.

The sprints are a pushover for the Sophomores. Experienced Bill Ames, and Leland Ekstrom will be a little too much for the game but green Frosh candidates. These two men have won many races for Tech in the past, and seem to be in even better shape now than before. The Sophomores expect Davis, who, incidentally, holds the record at Tech for high jump, to run away with this event, and also the broad jump. But he will have some competition in young Broutigam, a Freshman who looks good in practice.

The other events will be a toss up going to the team which can dig up the most talent between now and the meet.

As was said before, what both teams lack is man power. So all you track-minded '42's and '43's try out for your team. One point toward the goat's head trophy depends on it!

Frosh Play Interfloor Touch Football Games

Despite Monday's classes and perchance a hangover or two from Saturday night's events, three quarters of the Frosh living in Sanford Riley Hall turned out for interfloor touch football games Sunday afternoon.

Results show that the first floor men were victorious over the second floor squad by 6-0 with Hill making the touchdown. The third floor "20" (too many players for an eleven) took the fourth by a similar score. Gere made the sole touchdown.

Next Sunday afternoon, the Frosh are planning the playoffs.

Fighting Frosh Dunked

(Continued from Page 1, Col. 3)

will be held between the halves of the Norwich game on Oct. 21.

The Sophs in a clever surprise move appeared on the scene with digging implements varying from picks to shovels and toothpicks. At the bark of the gun for entrenchment, they entrenched. Quoting a freshman, "It would have taken all of Hitler's men to have blown those Sophs out."

Honor Membership

(Continued from Page 1, Col. 1)

terials. The recipients are: M. S. Burton, R. E. Dunklee, Jr., R. W. Hewey, I. D. Lowd, and C. F. Sullivan. The first four men are of the Mechanical Engineering Department and Mr. Sullivan is of the Civil Engineering Department.

Lambda Chi Takes Theta Chi and Lead in Tennis

In an early Sunday morning match, Ted Bates and Willie Gove of Lambda Chi Alpha took over Ken Parsons and Bill Ferguson of Theta Chi to grab the lead and continue a victorious streak in the interfraternity tennis league, 6-4, 7-5.

This second hectic week of competition has settled the situation down to a four-way battle to the finish. Theta Chi, Phi Gam and Alpha Tau Omega have only one loss on the debit side of the ledger and are still within hailing distance of the leaders, Lambda Chi.

Contests between these teams this week may decide the Greek letters to be inscribed on the tennis trophy.

Last week's matches brought forth no great upsets although A. T. O. furnished a bit of a surprise, (at least to the P. G. D. supporters), in turning back last year's champions last Thursday. Friday's match between A. T. O. and T. K. P. was postponed because of darkness after T. K. P. had captured the first set. The results of other matches were as follows:

October 9	
T. X. S. A. E.	6-0, 6-3
P. G. D. T. K. P.	6-3, 6-0
L. N. A. S. O. P.	6-1, 6-0
S. P. E. P. S. K.	10-8, 6-2
October 10	
A. T. O. P. S. K.	6-0, 6-0
S. P. E. S. O. P.	6-0, 6-0
L. X. A. T. K. P.	6-4, 7-5
P. G. D. S. A. E.	6-3, 5-7, 6-2
October 12	
L. X. A. S. P. E.	6-2, 6-3
A. T. O. P. G. D.	7-5, 6-1
October 13	
P. S. K. S. O. P.	7-5, 6-0
A. T. O. T. K. P.	6-3,
S. P. E. S. A. E.	6-4, 7-5

Sports Sidelights

By Charles L. Hoebel

Norwich U., newcomer to the schedules of Worcester Tech, invades Alumni Field Saturday with victories over Hobart, Hyannis, and the Coast Guard Academy. They took over Hobart by 25 to 13, Hyannis 33-0, and this past Saturday, invaded New London to win by 17-7. At the beginning of the season, Norwich issued a statement that, although they had lost a good many lettermen, they expected to turn out a formidable eleven. Last year they won two out of six, an improvement "after many lean seasons," they said. This raised high hopes "of better times ahead" . . . Rhode Island's football team, which is in this case to say Duke Abruzzi, rode rough-shod over the Brooklyn College eleven on Saturday, to win, 40 to 0. Abruzzi made four of the touchdowns, running 10, 54, 57 yards respectively for the first three and receiving a 10 yard pass for the fourth. This game was the first win for the Rams in four starts. . . . R. P. I., last game of the season and traditional rival of Tech, added a win over Rochester, 26 to 6. The other team on the slate, Mass. State, dropped a tough, even battle to the University of Conn., 7 to 6. Freitas, left half, made the lone State tally. . . . The Mass. State Harriers also lost, to Northeastern, on Saturday, 24 to 41. . . . Interclass track next week between the Sophs and Frosh should prove interesting. Each class has conceded itself the meet. Seriously, it should be a hotly contested meet. The Freshmen are out to pick up some of the lead that the Rope Pull gave the Sophomores, and the Sophs, after getting so few points last year are out to make it a clean sweep this year. . . . Clark's soccer team, greatest rivals of Tech booters, banged out a 7 to 2 victory over Arnold to open their season, but last Thursday came out on the short end of a 4 to 1 score in a game against A. I. C.

Tech's Fighting Gridsters Lose To Trinity 17-7 in Hard Battle

Cross Country Men Beat Trinity 27-29 In Second Victory

Conn. State Team to Meet
Tech Men on Thursday
Afternoon, Oct. 19

Saturday at Hartford the Tech cross country team outran a fast Trinity team to win by the narrow margin of two points. The course was flat but the Worcester hill climbers adapted themselves to the fast pace of the Trinity plainsmen.

Caffrey and Rosen of Trinity started out fast and finished in a tie for first place. Tech, however, led by Freshmen Drawbridge and Burns bunched up behind, and only three other Trinity runners placed. The course was a little over three miles and was easy after the tough hills of the Coast Guard. The time for the race was 17 minutes 46 seconds. The score was Tech 27, Trinity 29 (the lowest score being the winning score).

The next meet is with the University of Connecticut at Worcester on Thursday at 4:30 p.m. Connecticut has a good team but Tech hopes to overcome this as the race is over Tech's own course. The team would like to see a good crowd down at the field to cheer them as they cross the line.

The order of finish at Trinity was as follows: Caffrey (T), Rosen (T), Drawbridge (W), Burns (W), Nye (W), Dunklee (W), Smellie (T), Charles (T), King (W), Hunt (W), Riley (T), Fernane (W).

Barnes and Linden Lead Frosh Tennis

Leaders in the Freshman tennis tournament appear to be Mort Barnes and Eric Linden according to impartial observers who have been watching the tennis matches of the past week.

Although nothing but first round matches have been played so far the tournament should be over by the end of next week.

Some difficulty has been found by players in the city in finding men in the dorm.

The summary:

Pierson over Schoen	0-6, 6-4, 6-3
Linden over King	6-0, 6-3
Dunn-Pezza	unplayed
Russell over Achramowicz	6-2, 2-6, 9-7
Barnes over Nye	6-0, 6-0
W. Allan-Stoliker	unplayed
Farnsworth over Proctor	6-2, 6-4
Pim over Hine	6-4, 6-2
Peterson-Bakanowski	unplayed
Holmlund	bye

Lambert's Pass to Forkey Scores for Tech In Closing Period

Worcester Tech's winning streak of ten straight victories was snapped by the Blue and Gold gridsters of Trinity College at Hartford Saturday by a score of 17-7.

In the first quarter the game saw-sawed from one end of the field to the other as the teams felt each other out. The only approach to a score was made when Beidler of Trinity snatched a Tech pass on his own 43 yard line. Four successive plays brought the ball to the 15 yard line. Here Bob Lotz intercepted a Trinity pass, ending that advance.

In the second quarter Tech was apparently on the verge of scoring due to the completion of several long passes to Atkinson and Bellos, and line bucking by Fritch. A Forkey pass to Gustafson in the end zone was ruled incomplete because a lineman crossed the line of scrimmage. Discouraged by the resulting fifteen yard penalty, Tech lost the ball on the next play. Trinity now broke loose its devastating running attack. Effective cross-blocking in the line and hard-running, shifty ball carrying by Mugford and Beidler brought the ball to the Tech eight yard line. After trying a pass, Beidler plunged over for the first score. The placement, Booted by Knurek, sailed high over the middle of the cross-bars. The half ended with the ball deep in Tech territory.

Shortly after the exchange of kicks in the second half, Right End Kelley of Trinity recovered a Tech fumble near midfield. Four plunges put the ball on the ten yard line with a first down. A fumble, an incomplete pass and a line buck netted only three yards. At this point Knurek replaced Beidler at left half back and booted a place kick to add three points to the Trinity lead. Six plays later Trinity regained the ball on another intercepted pass and carried it to the Tech eleven when the third period ended.

Kramer opened the second half by carrying to the two yard line. Ryan carried around right end for the second touchdown. The point was converted by Harris. Tech now took to the air in an attempt to score. Atkinson and Fritch alternated in catching Forkey's passes and advanced the ball to the Trinity thirteen in spite of the seven-man pass defense used by the opponents. Lambert plunged five yards through center. On the next play the ball again came to Blazin' Ben, and expecting a run, the Trinity line closed in. At this point Lambert passed the ball high over the end zone to Forkey for a touchdown. Forkey kicked the extra point. Once more in possession of the ball, it looked as if Tech would score again, but Trinity intercepted a pass in the closing minutes, and retained the ball until the final whistle.

Touchdowns, Beidler, Ryan, Forkey. Field goal, Knurek. Points by kicks after touchdowns, Knurek, Harris, Forkey.

Trinity substitutions: Ends, Randall, Hanley; tackles, Thomsen, Wallace; guard, Jacy; backs, Mugford, Alexander, Knurek. Worcester Tech: Ends, Phelps, Curran; tackle, J. Wilson; guards, R. Wilson, Hanckel, Kojak; back, Atkinson.

Officials, referee, W. E. Dunn (Middlebury); umpire, J. E. Coogan (Navy); linesman, A. G. Huband (Texas); field judge, W. J. Coyle (Arnold). Four 15-minute periods.

Club News

(Continued from Page 2, Col. 4)
Sanford Riley Hall. Plans for the coming year were discussed.

The Society, in nine debates last year against some of the leading New England teams, intends to double its schedule. In spite of the fact that official entrance into the Eastern Intercollegiate Debating League was postponed until May, 1940, general manager Merrill Skeist announced that he felt confident of successively manipulating nine varsity and nine Freshman debates. Everett Smith, '40, Manager of the Freshman team, and George Cohen, '41, Assistant Manager, are aiding him. Many of the schools that Tech will debate this year sent teams to Boynton Hill last year. Among them are Holy Cross, Rhode Island State, Rensselaer, M.I.T., Boston University, and Fitchburg State Teachers College.

The first varsity debate of the season will be at Troy against R.P.I.

BRAND AT CONVENTION

Ronald Brand, president of the local branch of Tau Beta Pi, scholastic honorary society for engineering colleges,

has been attending the national convention in Columbia, Missouri, which was held there Thursday, Friday and Saturday of this week. Brand left here by train Tuesday, Oct. 10. The convention was held on the University of Missouri campus. Other members of Tau Beta Pi are Carl Fritch, Robert Dunklee, Raymond Shlora, Richard Coleman and Leonard Goldsmith.
